BECOMING A COLPOSCOPIST
The challenge of training

- Objectives of training

- Theoretical knowledge: basic and advanced courses

- Practical knowledge:

    - Precisely localise TZ

    - Recognize normal and abnormal TZ

    - Characterize abnormal TZ / classification

    - Clinical skills: Punch biopsy, LLETZ…

- Patients' further information, management and follow up

WHY A TRAINING THE TRAINERS SESSION?

Trainers are essential to optimal training in colposcopy

Training the trainers :

- Optimize practical training and feedback

- Homogenize the training

The trainers should know about

- Common difficulties in colposcopic practical training

- How provide feedback and make action plan

- Identify when the training is completed
