

Random Biopsies Have No Place in Colposcopy Practice

Charles WE Redman

President European Federation for Colposcopy

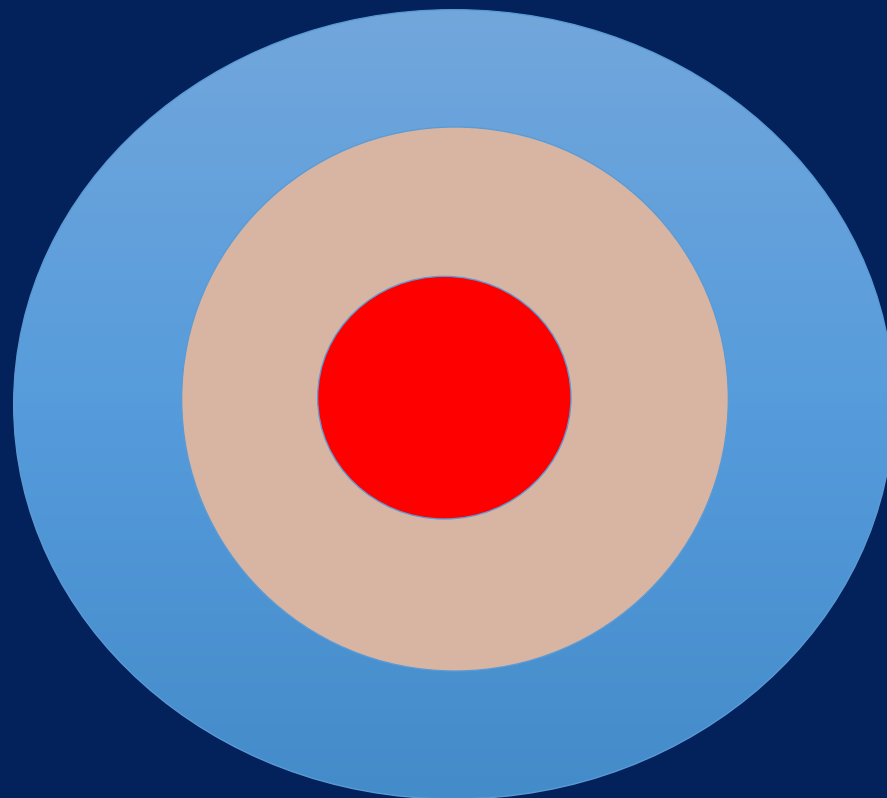

Disclosures

- Specialist Advisor for Colposcopy, Public Health England

The general idea

Statement of fact

Low grade scenarios

Poor colposcopic positive predictive value

Low sensitivity

Multiple biopsies

In reality?

Looking for the needle...

Need for adjunctive technologies

Summing up..

Conventional colposcopy challenged in low grade scenarios

Best addressed by expert colposcopists in quality assured services

Directed biopsies using enhanced colposcopy
